Seasonal Presents for SOS Villagers

Dear Parents,

I am sure that you are aware that Cyprus Today newspaper are organising a collection of gifts for the children of the SOS village. Several of our students have requested that ESK help to collect gifts which can be passed on to the Cyprus Today campaign.

The 'helping hands' club in the secondary school will visit all the homerooms each day to collect any donations that are brought to school.

Gifts should be to the approximate value of 20TL, should be marked with the gender and approximate age of the child that they are suitable for.

The SOS village currently cares for children in need in the TRNC.

This initiative is totally voluntary, we are well aware that families often have their own programme for charitable donations, children are free to participate if they wish.

Sincerely

Brian Smith

Secondary Head teacher
